## About HOMeAGE

HOMeAGE involves a nine-country collaboration between leading research units, major intergovernmental organisations, international civil society actors and governmental and non-governmental organisations.

HOMeAGE aims to institute an interdisciplinary, intersectoral, and international programme of doctoral training and research that drives the development of new leaders in excellence for the advancement of evidence-based innovation on ageing in place.

HOMeAGE, tackles three interrelated challenges by pursuing three strategic objectives through the work of 12 Doctoral Researchers (DRs) and their individual research projects.

### Challenge 1 - Needs and Systems:

HOMeAGE will identify flexible and sustainable housing, community-care and mobility systems and critically assess their capacity to support community living needs, across various cultural and structural conditions.

### Challenge 2 – Home and Belonging:

HOMeAGE will identify innovative place-based pathways for engagement as a means to create new channels for building a sense of home and belonging amongst diverse older populations, in diverse places.

### Challenge 3 – Rights and Voice:

HOMeAGE will identify integrative frameworks, that are responsive to the diversity of older people and their places, to drive relevant and rights-based policy development on ageing in place.
